

# Welcome to our *Maintenance recommendation* at Inter Ice-Pump

# Why maintain pumps ?

- Increase life-time of pumps
- Secure optimal performance of pumps
- Avoid potential costly downtime due to break down
- Inter Ice-Pump have developed service kits and a refurbishment program especially for our FP and IIP pumps

# Our maintenance recommendation

	Every 1.500 - 1.750 hours operation	Every 3.000 - 5.000 hours operation	Every >7.500 hours operation
<b>Seal Set</b> (O-rings, gaskets & carbon bushings)			
<b>Service Kit</b> (Seal set, impeller, star wheel, end cover, star wheel pivot, screws & nut)			
<b>Pump refurbishment</b> (Seal Set, Service Kit, re-chroming of house, test of pump)			

Maintenance schedule depends completely on type of media produced
